

Water and Sanitation

There are millions of people in the world who cannot access clean water resources due to economic and geographical conditions.

Epidemics caused by limited clean water resources threaten human life.

We open water wells in regions that need a clean water source, establish water treatment facilities and deliver drinking water to those in need.

“

People who live in arid regions, have to walk for hours to get a water well.

Water and Sanitation

We discovered regions struggling with drought and opened water wells.

Thanks to our projects 'A Drop of Hope', we opened water wells in 30 countries.

- ▶ We opened 33 water wells in 33 different villages in **Kenya**, where 1100 families and 6930 people benefit.

- ▶ We opened 27 water wells in 10 different regions in **Chad** where 10 thousand people benefit.
- ▶ We opened water wells in **Niger** where 1300 families and 900 people benefit.
- ▶ We made more than 100 people access to clean water thanks to the water wells we opened in **Nepal**.
- ▶ We opened 1060 water wells in **Uganda**.
